BISMARCK'S CANDIDACY.

AN ABSORBING TOPIC IN GERMAN POLITICS.

SPECULATION ON HIS COURSE IN THE REICHS-TAG-RUSSIA'S MASSING OF TROOPS-THE ADMISSION OF AMERICAN

PORE NOT YET AGREED TO. Copyright: 1891 ; By the New York Associated Press. Berlin, April 11.—The electoral contest at Geest unde, where Prince Bismarck's candidacy for the Reichstag is opposed by candidates belonging to the Socialist and Progressist parties, has assumed the proportions of a great political event. The entire interest of the country centres in the result of next Wednesday, when the polling will take place. Prince Bismarck has definitely accepted the candidature, on the assurance that he will receive a triumphant majority. This result was doubtful while a coalition between the Guelphs, Catholics and Progressist parties appeared probable. Before Dr. Windthorst, the Clerical leader, died, he advised such a combination as Clerical leader, died, he advised such a combination as the best chance to defeat his old foe; but the Catholics now refuse to support the Progressist candidate. The pensant vote will be given solidly to Prince Bismarck as the champion of agricultural interests besides his being the greatest living German. A combination be-tween the Socialists and Progressists might check the return of the Prince on the first vote; but as the day of the election nears the prospects of such a coalition

WHAT WILL HE DO IN THE REICHSTAG! Accepting Prince Bismarck's reappearance in the chateg as certain, everybody asks what his line of action will be when there. He himself states that he will only at in the House if political occurrences require his intervention. Count Herbert Bismarck, who has been in Berlin since Tuesday, has told some of his nds that the course of events seemed likely to hasten his father's presence in the Reichstag. The pessimist views of the foreign situation published by the Bisnarckian press generally conclude with the suggestion Prince's continued absence from politics is had for the country. There is no doubt that the renewal of the European crisis is the motive of Prince Bismarck's resuming a leading role. SENTIMENTS OF THE PRESS.

Professor Delbruck, an eminent Free Conservative, in an article in the "Preus Sicse Jahrbucher," predicts misfortune to the Prince or the Government. Either the ex-Chancellor, he says, will overturn the

Government in order to get power, or he will be crushed and end his life in gloom and shame.

The "Hamburger Nachrichten" denies that it is the mention of the Prince to offer any volument opposition to the Prince tion to the Emperor's foreign policy; but, proceeding give authoritative views on the situation abroad, the Nachrichten" discloses that the Prince's ideas are directly opposed to the policy of the Government. POSSIBILATY OF A GREAT BISMARCKIAN GROUP.

In discussing the question as to whether Prince Bismarck will try to form a great party, the "Gegenwart" publishes a letter of the Prince to George Winter, rburg, in which he says: "Though I desire to see formed a great homogeneous Parliamentary majority, I fear it is a vain wish. It will be as difficult to realize it in the future as I found it in the past." These expressions clearly denote some intention to attempt to TO MAKE TROUBLE ON ELECTION DAY.

The Hamburg Socialists threaten to make a rioton demonstration in Geestemunde on the day of the voting. They will send contingents for the purpose of making a lively time. The Berlin Central Committee has voted 3,500 marks to aid the local Socialist committee. The local authorities have been warned by the Government to preserve the peace.

THE IMPERIAL GAME OF CHECKERS.

The peaceable tenor of Emperor Francis Joseph's speech opening the Reichsrath added firmness to the speech opening the Nobody expected Imperial frank-ness on the secret game now being played, statesmen themselves not knowing what the next move will be.

RUSSIAN MOVEMENTS ON THE FRONTIER. Exact details concerning the Russian movements or the frontier prove that the increase of troops along the Galician frontier amounts to twelve battallons. The "Post," commenting upon the Government-inspired peace statements, compares them with the rough as surances of a doctor watching a patient in a sick room and desirous of stopping inquiries by saying: "All is going well." The "Politische Correspondenz," of na, announces that the St. Petersburg Government will acquire all the Southern Russia railways, so as to form a direct line from the Black Sea to the Baltic. The plan is of great strategic importance.

AMERICAN PORK AND CATTLE.

The report of the abolition of the restrictions agains American pork is entirely premature. The truth of the matter is that the Government will not withdraw restrictions until the new measures under the law of reh 3 are 'put into efficient operation. Probably Here iswine will be admitted first, following precedent of live cattle. Concerning pork, it is cerproof be demanded in regard to the condition of the American product, while nothing is done to test the state of the home-raised hog. The Schleswig pis, which is largely slaughtered in Hamburg, deserves a close microscopic examination, but does not get it. The importation of American cattle grows apace. American dealers seem only now to be waking up to the fact that the restrictions raised against the early imports came from one or two firms, while the others slumbored. The trade is certain, and if it develops in the same ratio every month it will seon assume enormous proportions. The official Hamburg figures show that the importations were in January 144 head, February 451. March 811. The first arrivals at February 451. March 811. The first arrivals at February 451. March 811. The first arrivals at Hitherto Hamburg has held the trade. The papers hall the advent of the American cattle with satisfaction. tainly irregular that the most extreme methods of

WILLIAM AND HIS LABOR SCHEMES. The Reichstag has resumed the discussion of labor reforms. The Socialists Frohme and Bebel have renewed their accusations that the Emperor's projects newed their accusations that the Emperor's projects favor masters at the expense of men. The "Reichsanzeiger" says that the Emperor hoped that the House would seriously back his project, so as to enable the reforms to come into force this year. He is chagrined to find that the delays of procedure are so great that there will be no chance to apply the law before January next.

EMPRESS FREDERICK TO OPEN THE ART SHOW. Empress Frederick has agreed to open the Inter-national Art Exhibition. Despite the Paris incident, several leading French artists will send studies to the exhibition.

AN IMPERIAL VISIT TO ALSACE-LORRAINE. The Emperor will go to Alsace-Lormine at the end of the month. He will make a tour of the fortresses. The prefecture of Metz is preparing to give him a reception.

FIRED ON BY A BAND OF OUTLAWS.

St. Louis, April 11 .- A dispatch from Eagle Pass, Tex., says: "Word has just been received here of a terrible tragedy which took place near Lerdo on the Mexican Central road. Last Tuesday evening after the arrival of the southbound train, Juan Roderiques. with the driver and porter, started in a ragon with the express matter for the company's office at Lerdo, a town three miles distant. As the made a sharp turn in the road about a mile from the town, some dozen men concealed in the harged upon the wagon. The driver fell dead from his seat, but Roderiques and the porter, though wounded, managed to get off. The clerk made straight for Lerdo at his namost speed and fell dead just as he reached the gate of the municipal custom house. The band captured the wagon and made away with the entire contents, which included less than \$200 in money."

KILLED FOR TAKING A DRINK OF WATER.

St. Louis, April 11 .- A dispatch from Pearsall, Tex., "Philip Endizzi was arrested yesterday charged with the murder of Jacob Stumpf. Both men were members of the bridge-building gang. Endizzi asked stumpf to get a bucket of water and the latter refused. Bedizzi went after the water, and when he returned remarked that all might drink except Stumpf. The latter walked up to take a drink, whereupon Endizzi shot him through the heart."

UNCLE SAM'S PRISONERS ESCAPE.

St. Louis, April 11 .- A dispatch from Ardmore, I. T., says: "A remarkable jail delivery occurred last night. Seven prisoners confined in the United States jail made good their escape. They got out by caseing the iron bar out a window and then dug out under the yard fence."

THEY WANT A SHARE OF THE PROFITS. Baltimore, April 11 (Special).-Two policy-holders in the Baltimore Equitable Fire Insurance Company to-day filed a bill in the City Circuit Court asking for a receiver. The case is a test one and involves more than \$1,000,000. The bill states that the complainants are holders of policies issued by the company, and that the company has been doing business since 1704; ring that period it has accumulated a surplus of \$1,300,000; that no part of the profits have been by it distributed to the pollcy-holders, though the charter of the company requires this to be done. The pacy was amended and the amendment accepted by the company; that under this amendment grave and serious doubts arise whether or not the company did

not cease to exist as a corporation thirty years after the passage of the amendments. Again in 1882, the bill says, an amendment was passed by the Legislature authorizing the company to insure against loss by five authorizing the company to insure against loss by are for premiuma paid. This, it is alleged, is subjecting the deposit policy-holders (persons who have paid a stipulated sum for perpetual insurance) to lianilities not contemplated under the original charter; and that the company, in issuing policies of this kind, violates the charter rights of the deposit policy-holders. The complainants ask for a distribution of the surplus. The whole property of the company amounts to more than \$2,000,000.

EXPLOSION IN A NAVY YARD.

LIEUTENANT-COMMANDER PENDLETON AND AN-

OTHER MAN SERIOUSLY HURT. Washington, April 11 .- An expansive joint in a fourteen-inch steam-pipe in the main boller-house at the Navy Yard blew out about 10:50 o'clock to-day, seriously injuring Lieutenant-Commander Pendleton, of the Navy, and John C. Hardester, an engine tender This morning a leak became apparent in the steam-pipe which conveys power to the projectile shop. A force of steam-fitters at once started to make the necessary repairs, the connection with the boiler-house being cut off. A jack was being operated beneath the joint, the foundation of the jack resting upon the great brick flue which leads from the fire-hoxes horizontally to the gigantic smokestack. At about 10:50 there were standing on this flue Lieutenant-Commander Pendle ton, John C. Hardester, Lenjamin McCathren and John McCathren, machinists, and Frank Moore, steamfitter. A minute later Lieutenant-Commander Pendle-

ton was unconscious on top of the fine; John C. Hardes ter was bruised, bleeding and senseless on the ground, twelve feet below; the McCathrens and Moore had escaped without injury. There had been no warning just a momentary hiss, then an explosion, followed by a designing roar as steam under a pressure of eighty five pounds to the square inch poured out of a four teen-inch pipe. The boller-house was filled with the escaped steam, and for a little while it seemed to those in the immediate fieighborhood as if all the workers nust have been killed. Doors were thrown open and window-sashes kicked out by some, while others shut off the supply of steam. William Bell, a fireman, climbed

the supply of steam. William Bell, a fireman, climbed the ladder to the flue-top, and after taking Pendleton to the floor carried him into the outer air. Three men, comployes in the yard, picked up what they believed to be the dead body of Hardester.

The wounded men were at once taken to the disponsary. Commander Pendleton was found to have suffered a severe scalding on the right side of his face, and especially in the region of the right eye. After treatment he was taken to his home in the yard. Mr. Hardester's wounds were more numerous than those of the other sufferers. His scalp was badly torn, and there was concussion of the brain, while his right arm was seriously fractured just above the elbow.

NOTES OF THE WORLD'S FAIR.

Chicago, April 11 (Special).-Directors of the Columbian Exposition are still in a quandary about the selection of a new president for the local board. Last night the Nominating Committee appointed by President Gage settled upon James W. Scott. But Mr. Scott protested that his private and business interests demanded all of his time. In spite of this, the Nominating Committee adjourned, to report to the directory meeting next Tuesday night.

The Department of Electricity of the World's Fair is busily at work preparing a fine electrical exhibit.

More than 100,000 square feet of space have already been applied for by interests that cannot be refused or curtafled.

The Phoebe Couzins dispute has resulted in issuing of a notice by Mrs. Palmer, the president of the Board of Lady Managers, saying that: "The executive committee of the Board is preparing a statement to be sent to all the members of the Board and their alternates, correcting the misinformation that has been sent out relative to the formation of the Executive Committee; and asking the lady managers and their alternates to withhold their opinion on the subject until they receive the official statement."

A VOUNG SCAMP'S SCHEME TO GET MONEY. Rochester, N. Y., April 11 (Special).-James Pren tice, a boy sixteen years of age, was brought to this city on a New-York Central express train early this morning. He had been arrested on suspicion of placing ties across the track near batavia to wreck the train. The lad attempted to make the conductor believe that he had overheard two Italians plotting to

wreck the train, and that he had borrowed a lantern, wrapped a red flannel shirt around it and had rushed down the track just in time to save the train. When the Chief of Police examined him this morning, he confessed that he put the ties on the track himself and signalled the train with a view of getting a reward from the passengers.

LEGISLATION IN MINNESOTA.

St. Paul, Minn., April 11.-In the House this morning the Homps Railroad bill, already passed by the Senate, was considered in Committee of the Whole and recommended for passage. Senator Hompe is an Alliance member, but the representatives of that party in the House had, until to-day, refused to have sugh to do with his bill, considering it not sufficiently radical. The House bill (Currier's) was a decidedly radical measure, and was defeated by the combined Republicans and Democrats of the Honse. The favor-able action on the Hompe bill to-day was unanimous, and the result will be the present scitlement of radical railroad legislation in Minnesota. The present railroad law is untouched by the Hompe bill, its chief new provisions being to allow appeals, and thus bring the present law within the limits of recent decisions

of the Supreme Court.

In the Senate, the Leavitt bill, repealing the present law taxing the output of mines one cent per ton, and bringing mines under the general tax law, was amended by a substitute measure, making the tax three cents nsteaf of one cent.

Lockwood's bill, prohibiting trusts and pools, has passed the House by a vote of 67 to 1. It provides that any corporation or company that shall becme a member of any pool or twist to regulate or fix the price of provisions or other commodities, or to fix or price of provisions or other commodities, or to fix or limit mining or manufacturing production, shall be deemed guilty of a conspiracy to defraud, and be liable to a fine of from \$100 to \$5,000.

Mack's bill to investigate the Australian system of land transfers passed the House.

Bell's bill, providing for the forfeiture to the State of all uncarned railroad land grants, was defeated.

DAMAGE TO A BOSTON BUILDING.

Boston, April 11.-The massive State-st. Exchange Building, just completed, has settled considerably and as a result the Codman Building adjoining on Kilbyst. has been badly damaged and will have to undergo extensive repairs. No damage is noted to the Exchange Building itself.

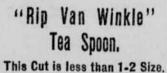

GOLD QUARTZ FROM CHEROKRE STRIP. Kansas City, April 11.—A dispatch to "The Star" from Arkansas City says: "E. T. Buchanan arrived here last night with a number of samples of quarts found in the Cherokee Strip fifty miles southwest of here, which were assayed this morning and found to be very rich in gold. Grent excitement prevails. Several hundred men have announced their intention to go to the field."

THE SICK LIST AT THE CAPITAL. Washington, April 11.-There has been no material change in General Spinola's condition since yesterday. He is extremely weak.

General Rosecrans continues to improve rapidly, and will soon be able to resume his official duties. Ex-Governor Fletcher, who was prostrated with an attack of pneumonia, is better to-day, and is believed to be out of danger.

OFFICER KILLED AND FORGER PATALLY HURT.

St. Louis, April 11 .- A dispatch to "The Post-Dispatch" from Little Rock, Ark., says: "A terrible tragedy was enacted last night near Pinnacle Springs. M. S. Good, who is charged with forgery in Nebraska, killed James P. Paxton, a Nebraska officer, who was trying to arrest him. Good was afterward captured

Fall River, April 11 (Special) .- The print cloth man ket for the week has been quiet, and sales have been lighter than for some time past. The demand has been fair, but printers are not disposed to stock up unless advantageous prices are offered. Manufacturers are, firm in the demand for higher prices, and, falling to get them, are willing to rest on their oars and wait. There has been a fair call for odd goods, and most of the mills engaged on contracts for future delivery are making goods of that class. There has been some talk of a reduction of wages, but Secretary Rounseville, of the Manufacturers' Association, says the feeling in favor of a cut-down has not become general. It is pretty generally allowed that there is no profit in prints at present prices, and mills employed on odd in prints at present prices, and mills employed on odd and fine goods are not doing as well as they were three months ago. A MURDEHER SHOT DOWN BY A POSSE.

Birmingham, Ala., April 11.-Charles Bagsley, the negro who killed Officer Wood at Blocton a few days ago, was shot and killed by a posse at Johns Station yesterday morning. Several officers learned that the murderer was concealed in a negro house near Johns, and going there, demanded his surrender. Instead, as in the former instance, Bagsley opened fire with two pistols. Deputy John Sanders fell painfully wounded ran. Before he had gone many steps the crowd opened dre on him and he fell with fully twenty bullet holes in his body. and Bagsley broke out of the rear door of the house and

EVANGELICAL MINISTERS DEPOSED.

Chicago, April 11 .- A dispatch from Dubuque, Iowa, says: "Three ministers have been deposed from the ministry of the Evangelical Church of North America by the Iowa Conference, which is holding its annual meeting here. The charges against them all are alle-giance to the so-called rebel faction of the Church, which is headed by Bishop Dubs, of Chicago. Seven other ministers were allowed to leave the conference under charges. They will be forced to go outside of under charges. They will be forced to go outside of Iowa to get pastorates, for the churches in this State are under the control of the loyal faction, headed by Bishops Thomas, Bowman and Esher. Bishop Bowman is presiding over the present conference. The conference adopted resolutions condemning Dube as an arch-traitor, and pledging their allegiance to Bishop Bowman. The resolutions provoked a stormy debate, but were adopted by a large majority.

FROM WEST OF THE GREEN MOUNTAINS. St. Louis, April 11.-Judge Wheeler K. G. Veazey, of Vermont, a member of the Interstate Commerce Commission, arrived in the city yesterday from Decatur, Ill., where he has been attending the Grand Army of the Republic Encampment. Judge Veazey is here for the purpose of hearing further testimony in the case of the Hezell Milling Company, of East St. Louis, which complains that it has to pay as heavy freight charges as those located on this side of the river. The Judge was asked who he thought would succeed Senator Edwas asked who he inough would success earlier munds. "His resignation," he said, "took place after I left Washington, and I have heard very little speculation in reference to his successor, but whoever he is, he will come from the west of the Green Mountains. Further than this I know nothing."

A COLORED HEIR FOUND.

Baltimore, April 11.-Gilbert F. Chinn, colored, the heir of \$50,000, who has been in the employ of the Baltimore and Ohio Railroad as a porter, arrived today in Baltimore. Search was made for him by Harry S. Cummings, the colored Councilman, to whom Mayor Davidson turned over a letter inquiring for The letter came from Colorado, fortune is. The papers of identification will be pre-pared by Cummings. Chinn is about thirty years of age, is married and an intelligent man. He was at one time a student of medicine.

CLOSE OF THE INDIANA ENCAMPMENT.

Indianapolis, Ind., April 11.-The Grand Army of the Republic's State Encompment was ended yesterday. Colonel I. N. Walker, of this city, was elected Department Commander and Governor A. P. Hovey delegate for the State at large. The encampment adjourned to meet next year in Fort Wayne.

St. Louis, April 11.-Hale W. Parker, colored, who was appointed alternate World's Fair Commissionerat-Large by President Harrison yesterday, is a man of considerable prominence among those of his race. It generally considered that no better appointment of is generally considered that no better appointment of a representative of the negro could have been made. Mr. Parker is a graduate of Oberlin College and of the St. Louis Law School, and is a man of unusual culture and intellectual attainments. His father is a wealthy manufacturer of Ohio, and the new alternate commissioner, in addition to his collegiate training, has the advantage of being a practical mechanic and machinist, having learned the trade in his father's workshops.

GENERAL JOHNSTON'S BURIAL PLACE.

Richmond, Va., April 11.-Judge George L. Chris ian, secretary of the recent mass-meeting of citizens eld at the Chamber of Commerce, which adopted resdutions commemorative of the death of General Joseph E. Johnston, has received a letter from ex-Governor J. L. McLane, in which he says:

J. L. McLane, in which he says:

General Johnston's will imposes upon me, as his executor, the duty of laying his body in Greenmont Cemetery, by the side of his beloved wife, in a double grave, prepared under the General's own supervision and with his characteristic simplicity. I feel, however, in common with the members of his family whom I have consulted, according to your request, that conditions may arise that would justify us in departing from his expressed wish. Should the united voice of his comrades in the armies of the South, which he successfully commanded, demand that his body be entrusted to their keeping, and placed with appropriate honors in his native State, near the Capital of the late Confederacy, we would feel justified in yielding to it.

HEIRS TO TWO MILLION DOLLARS.

Chicago, April 11.-Mr. and Mrs. Sidney Hendricks f this city, received information this week that they were heirs to a fortune of about \$2,000,000, being part of an estate left by Mrs. Hendricks's grandfather, Isaac Phillips, of Easton, Mass.

AMERICA'S GREATEST RAILROAD. The New-York Central sends eleven magnificently appointed passenger trains out of Grand Central Station every day to the North and West. Its through service is unsurpassed. WILLIAMS MEN IN ERROR.

THEY MAY PLAY AGAINST LEAGUE CLUBS. A MISUNDERSTANDING PREVENTS A BASEBALL

GAME-TALK ABOUT PLAYERS. The rain yesterday again caused the postponement of all the local baseball games. The Yale College and New-York teams were to play at the Polo Grounds, but the captain of the college team telegraphed from New-Haven in the morning that the college nine would not come to New-York. The Brooklyn and Buffalo teams were to play at Washington Park, but that place was a sea of mud and water.

A misunderstanding has arisen between the Williams College and the New York clubs, and as a consequence the game scheduled between those two teams for the Pole Grounds to-morrow has been declared off. The Williams College nine recently played against the University of Pennsylvania team, which had made itself ineligible to play against National Agreement clubs by playing the Athletics. The Williams College manager felegraphed to Manager Mutrie on Friday, asking for instructions, and saying that if an answer was not received in twenty-four hours the college team would not come to play the game scheduled for to-Manager Mutrie has been in Boston and did not re-

turn to the city and receive the telegram until yester day. He immediately arranged to have the New York nine and Metropolitans play at the Polo Grounds to-morrow. If the Wifliams College students imagine that they may not play against League clubs they are in error. No League team can play the University Pennsylvania nine, but any other nine which plays with the University of Pennsylvania is not affected by the rule.

William Brown, the catcher, reported at the Polo Grounds yesterday and he looked in excellent condi-tion and showed no bad effects from his long ride from California. Brown denies that he has been sick at all, in spite of the fact that several tolegrams have had him at death's door. Ewing says that Brown is in perfect condition. Brown will hardly be kept on the local team, and as the Philadelphia club desires his services, he will probably go there. The Boston club has put in a bid for Sharrott, the pitcher, but the youngster will not be released by the local club. The American Association championship record to date is as follows:

The Brooklyn club expects to move to Eastern Park next Saturday. The Yale College team will play the Bridgerooms on that day.

The Ridgewood and Merritt baseball clubs will play at Ridgewood to-day.

BALDWIN SUES VON DER AHE. St. Louis, April 11 .- Mark E. Ealdwin, the pitcher of the Pittsburg League team, began a \$20,000 damage suit in the Circuit Court yesterday, against Chris Von der Ahe, of the Browns, whom he charges with malicious prosecution. The suit grows out of the arrest of Baldwin on March 5, upon an information taken out by Von der Ahe, charging him with conspiracy with O'Nell and others to bribe Charles F. King to abandon the Browns and join the League team.

RACING IN ENGLAND.

April 11 .- This was the third and last day of the Sandown Park Club's second spring meeting. The race which excited the most interest was the Monmouth Hunters' Steeplechase, of £1,500, three miles. Bloodstone proved the winner, with Champion second and Peerage third.

THE NEW-YORK STATE DELEGATES.

E. Smith, "Syracuse Journal"; H. J. Knapp, "Auburn Advertiser"; E. H. Butler, "Buffalo

COLUMBIA SEEKING A PRINCETON PROFESSOR. Princeton, N. J., April 11 (Special).—There is a rumor in college circles, which is believed to be well counded, that Professor Henry F. Osborn has received an invitation to a professorship in Columbia. Pro-fessor Osborn was graduated from Princeton in the class of '77. After spending several years abroad, he was appointed assistant professor of natural science in 1882, and in the following year was made professor of comparative anatomy. He is one of the most popular men of the faculty, and every effort will be made to keep him in Princeton. He has always taken an active interest in the athletic affairs of the college, being at present a member of the graduate advisory athletic committee.

AN OFFER TO A STATE GEOLOGIST.

St. Louis, April 11 .- A dispatch from Little Rock, "Dr. Joseph C. Brannock, the State Ark., says: geologist, has been offered the chair of geology in the Lesand Stanford University of California. Dr. Bran-nock has two years' work yet before him here, and he is underded whether to accept the position at once or wait until he finishes his work in Arkansas."

MORE COMPLAINTS OF RATE-CUTTING. Chicage, April 11 .- The more conservative of the Western roads are beginning to complain of the evident manipulation of freight rates by competitors. Report has it to-day that eastbound rates from St. Louis are being cut to an extent that is diverting the bulk of the through business from Western points to that gateway, through business from Western points to that gateway, to the detriment of the Chicago lines. It is alleged that the Clover Loaf is the aggressor in this method of competition, and that the Wabash and other roads have been drawn into it for their own protection. It is also rumored that Colorado traffic is in danger of becoming demoralized, in consequence of two or three cut rates that have come to light.

HE FEARS THE LAW WILL BE VIOLATED.

GIBES IS WORRIED OVER THE PLANS FOR BRING-ING HARMONY IN THE XILITH DISTRICT.

"Fred" Gibbs, whose followers are growing visibly estive at his domineering way of running his machine in the XIIIth Assembly District, is not wholly pleased with the committee selected by Chairman Patterson to study out the knotty problem of how to bring about Republican harmony in that district. This committee composed of Frank Raymond, John H. Gunner, John R. Nugent, J. Thomas Stearns and William H. Ten Eyck. Mr. Gibbs fails to become enthusiastic over this committee. What worries him most is that he fears that the Civil Service regulations are in danger of violation, in spirit, if not in letter, by the selection of Deputy-Collectors Raymond and Gunner to serve

"I think," Mr. Gibbs said yesterday with a rueful expression of countenance, "that some trouble may grow out of this, even if the spirit of the Civil Service law, which I have fought for and upheld for two or three years, should not be violated. I am perfectly willing to trust this committee generally, because it is made up of politicians, but it is not the proper thing for Federal office-holders to take a hand in the settlement of local political disputes. Theodore Roose velt's attention should be called to this matter and his aid invoked to prevent such disrespect being shown to the Civil Service law."

Mr. Gibbs was in a grambling mood regarding other natters. People were mistaken, he said, in supposing that the fight in the XIIIth District was a political one. The belief has seized him that it is in the main a religious conflict. The Sixteenth Ward, he said, was the hot-bed of Orangemen, who had been down on him ever since he introduced the Freedom of Worship bill in the Senate in 1885. Some people wonder why it took Mr. Gibbs five years to find out about the antagonism he excited from the "bloody Orangemen."

From grumbling Mr. Gibbs went to boasting. He has scented a purpose on the part of the Executive Committee to put a "skeleton" organization in the district, but he had no fear of checkmating such a move. "If they do that," said Gibbs, "Cowie and I will get together in ten minutes. I will run for the Assembly again next fall and be elected. Essides, I will have a delegation at the next State Convention and it will be admitted. So will John Brodsky's delegation from the VIIIth." that the fight in the XIIIth District was a political

REPUBLICANS COUNTED OUT. Evansville, Ind., April 11.—The counting out of Pracellin, the Surveyor, and Stinchfield, of the Board of Public Works, Republicans, by the Democratic Elecion Board, caused an action for possession of office and damages to be filed yesterday. The Democrate threw out three precincts giving heavy Republican najorities, which displaced the two Republicans, be cause the inspectors failed to produce the tally-sheets. The Republicans will contest to the bitter end. Scar-borough, Republican member-elect for the Board of Public Works, and Gange, Kronenberger and Her-mann, Republican Councilmen-elect, are not inter-fered with by the counting-out process. The election was held under the new Australian system.
